

Storage

FOR MUSEUMS

CIVIL WAR WEAPONS ARE SAFELY STORED AND PROTECTED IN SPACESAVER WEAPON RACKS

WHAT: Eastern Civil War Museum.

OBJECTIVE: To find an effective storage device for precious Civil War weapons. Weapons need to be protected from environmental conditions and other harm, to preserve their quality.

SOLUTION: Spacesaver's Weapons Rack 2 were used inside a secured, environmentally controlled, storage room. The racks are able to stand alone, so they were positioned along the outside storage wall.

PRODUCT: Weapons Rack 2.

UNIQUE FEATURES

- Rubber chords offer extra protection holding weapons in place.
- Special vinyl coating on the barrel rests protect barrels at their contact point.
- Rubber mats protect the butts of the long guns at their contact point.
- The barrel rests are adjustable to accommodate varying heights.

BENEFITS

- Weapons are secure and safe in their environment.
- Weapons are easy to access and retrieve.
- Racks can be fit into shelving units with locking doors if extra security is needed.
- Racks, once mounted inside a shelving unit, can be retrofitted safely to mobile storage units.
